## Section 5 - Fire Fighting Measures

### General Fire Hazards

Exposure to hazardous decomposition products may cause a health hazard. Fire will produce dense black smoke.

### Hazardous Combustion Products

Exposition to high temperatures may produce hazardous decomposition products such as: carbon dioxide, carbon monoxide and smoke.

### Extinguishing Media

CO<sub>2</sub>, sand, extinguishing powders. Do not use water.

### Fire Fighting Equipment/Instructions

Exposure to hazardous decomposition products may cause a health hazard. Appropriate breathing apparatus may be required.

### Section 6 - Accidental Release Measures

**Containment Procedures**

Contain and collect spillage with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container according to local regulations.

**Clean-Up Procedures**

The contaminated area should be cleaned up immediately with a suitable decontaminant.

**Evacuation Procedures**

Isolate area. Keep unnecessary personnel away.

**Special Procedures**

If the product contaminates rivers and lakes or sewages, inform respective authorities. Do not allow to enter drains.

### Section 7 - Handling and Storage

**Handling Procedures**

Product should only be used in areas in which all naked lights and other sources of ignition have been excluded. Preparation may be charged electrostatically. When transferring from one container to another apply grounding measures and use conductive hose material. Avoid skin and eye contact. Smoking, eating and drinking should be prohibited in application area. Comply with health and safety at work laws. Protect against electrostatic charges. The product forms flammable fumes when overheated.

**Storage Procedures**

Keep container tightly closed. No smoking. Containers which are opened, must be carefully resealed and kept upright to prevent leakage. Store away from oxidizing agents and strongly alkaline or acidic materials. Observe label precautions. Store in a dry, well ventilated place. Always keep in containers of the same material as the original one.

**Specific Use**

Filler/Extender

### Section 8 - Exposure Controls / Personal Protection

**Substance Exposure Limits**

The EU, ACGIH, Austria, Belgium, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Netherlands, Portugal, Spain, Sweden, and United Kingdom have not developed exposure limits for any of the substances in this preparation.

**Engineering Controls**

None needed

**PERSONAL PROTECTIVE EQUIPMENT****Personal Protective Equipment: Eyes/Face**

Tightly sealed safety glasses

**Personal Protective Equipment: Skin**

For prolonged or repeated contact use gloves. Working clothes must not consist of textiles which show a dangerous melting behavior in case of fire. All parts of the skin should be washed after contact.

**Personal Protective Equipment: Respiratory**

None needed

**Personal Protective Equipment: General**

None
